RUSSIAN TROOPS LIKE TIDAL WAVE

Three Million of the Czar's Forces
Are Rolling in Upon Teuton
Soldiers.

PUSH FOES BACK TO FORTS

Petrograd Says Germans Are With-
drawing Major Part of Their Forces
From the Vistula-Nie-
men Front.

Geneva, March 29.—Dispatches to
Swiss newspapers report sanguinary
encounters on the banks of the Dnieper,
in Galicia, 43 miles from Cracow,
where Austrian attacks are said to
have been repulsed by the Russians,
with losses placed at 8,000.

By FRANCIS L. LITTLE MURRAY.

International News Service Correspondent.

Petrograd, March 29.—Three mil-
lion Russian soldiers are rolling like
a tidal wave upon the Austro-German
forces along the Carpathians from the
Dunajec river to Bukovina, thrusting
back their foes to their fortified posi-
tions in the passes and on the crests.

Germans to Carpathian Front.

To meet this vast army, the Ger-
mans are withdrawing the major part
of their forces from the Vistula-Nie-
men front where the spring thaws
have caused a cessation of operations
at most points. According to reports
received by the war office from vari-
ous commanders along the front in
Poland, the Germans there now num-
ber only 550,000 men in 144 corps.

As the total strength of the Germans
in the eastern war theater is estimated
at 3,500,000 men, war office officials be-
lieve that the other 2,950,000 have
been concentrated at the Dunajec and
Carpathian front.

No boastful predictions of a dash-
ing sweep upon Cracow and the plains
of Hungary are made by the Russian
military leaders, but an air of calm
confidence in the final outcome pre-
vails the war office. The official Rus-
sian view of the situation was voiced
by Minister of War Sukhomlinoff.

"An immediate triumph of the Rus-
sian army need not be expected," he
said, "but an ultimate triumph is cer-
tain. We do not underestimate the
qualities of our German foes. It is
upon them that the task of defending
Hungary and Cracow will fall.

Austrian Morale Impaired.

"The Austrians must be reckoned
with as fighters as long as any of
their corps remain whole. Their mor-
ale has been badly impaired by suc-
cessive defeats and the loss of
Przemysl, but nevertheless they have
an army that is of unquestioned
strength."

General Sukhomlinoff declared that
the victory won by the Russians at
Lupkow pass was of great strategic
importance, giving them possession of
the railroad there, but intimating that
severe fighting might be expected be-
fore the Russians got through the
pass to Hungary.

40 MEN DOOMED TO DEATH

British Freight Steamer Trostburg
Wrecked and Being Pounded to
Pieces—Fifteen Men Drowned.

Tangier, Morocco, March 29.—With
40 men on board apparently doomed to
death, the British freight steamer
Trostburg is being rapidly pounded to
pieces by wind and sea off Cape Spar-
tel, where it was wrecked. Despairing
of rescue, 15 men of the crew launched
a boat early and attempted to make
their way to the rocky shore. The
boat struck a rock before it had gone
60 feet and capsized, all its occupants
being drowned.

The Trostburg, a vessel of 7,000 tons,
carried a crew of 70 men. Thirteen of
them were taken off shortly after the
ship was wrecked by British destroyers
summoned by an "S. O. S." wire-
less call. The remaining 57 elected to
remain on board while the French
cruiser Friant attempted to pull the
Trostburg off. The wind increased and
the Friant was compelled to abandon
its efforts.

SERBIA IS IN GRIP OF TYPHUS

Henry James, Jr., of War Relief Com-
mission, Calls Conditions in Strick-
en Country Appalling.

New York, March 29.—Serbia is in
the grip of an epidemic of typhus
more virulent and attended by greater
fatality than the world in modern
times has ever been called upon to
combat, according to Henry James, Jr.,
of the war relief commission of the
Rockefeller foundation, who arrived
here on the steamer Lusitania from
verpool.

DON CAMPAIGN IN EGYPT

Reports Defeat of Turkish
at the Town of Suez,
March 23.

March 29.—Turkish troops
in their campaign against the
Egyptian town of Suez on March 23,
have abandoned their efforts in that
direction and retreated to Nekhi, ac-
cording to an official report from Cairo
issued by the government press bu-
reau. It states that only three British
soldiers were killed in the fighting at
Nekhi and sixteen wounded, while
the enemy lost fifty killed.

TURKS INVADE EGYPT

Constantinople Reports Marked
Success Against British There.

One Entire English Column Destroyed
and Another Repulsed—Tribesmen
Are Co-operating.

By LUDWIG VON KLEIN.

International News Service Correspondent.

Constantinople (via Berlin and Am-
sterdam), March 29.—Resumption of
the Turkish campaign against Egypt
with marked success for the Ottoman
troops at two points was officially an-
nounced here. A statement issued by
the war office reports the destruction
of an entire British column at one
point and a repulse of British troops
at another. In the latter conflict 300
British soldiers were killed. The official
statement follows:

"A resumption of Turkish troops
during the operations against the Suez
canal encountered a British column
near Madan. This column was com-
pletely destroyed.

"Subsequently the Turkish troops
successfully bombarded in the canal
two transports carrying British troops.
Another Turkish detachment set fire to
a British transport between
Shallufa and Adajigil.

"Co-operating with loyal tribesmen,
the Turkish troops surprised the en-
emy southeast and north of Sijuba
on March 16, capturing the positions
there. The enemy was driven back
seven miles to Sijuba and 300 British
soldiers were killed. Many others
were wounded. The Turkish forces
lost 32 killed."

AUSTRIANS TAKE OFFENSIVE

Vienna General Staff Reports That the
Russian Left Wing Has Been
Driven Back.

Vienna, via Berlin and Amsterdam,
March 29.—Successfully repulsing all
attacks in the Carpathians, the Austro-
German forces in Bukovina have
taken the offensive against the Rus-
sian left wing there and have driven
it back to the Dniester river, the Aus-
trian general staff reported. The town
of Zaleszczyki, 26 miles north-north-
west of Czernowitz, which the Rus-
sians have used as their base of op-
erations on the Dniester, is being
shelled by the Austrian artillery from
the south bank of the river.

Other Austro-German forces operat-
ing northeast of Czernowitz are ad-
vancing toward the fortress of Chotin
in the Russian province of Bessarabia,
according to dispatches received here
from Budapest.

T. R. MAKES SOME CHARGES

Says President Wilson and Secretary
Bryan Endorsed to Favor For-
eigners' Shipping Bill.

Washington, March 29.—The charge
that President Wilson and Secretary
of State Bryan endeavored, in the in-
terest of certain foreign business
firms, to secure for the United States
the power to purchase the interned
ships of one of the belligerents in the
European war, is made by Col. Theo-
dore Roosevelt in his reply to the in-
vitation to testify before the ship pur-
chase bill lobby investigating com-
mittee of the senate.

BIG COMBAT IS POSTPONED

Johnson-Willard Fight Will Take Place
on April 5, Because of
Easter Sunday.

Havana, March 29.—The fight for the
championship of the world between
Jack Johnson and Jess Willard has
been postponed until Monday, April 5.
President Menocal of Cuba object-
ed to the staging of the combat on
Easter Sunday.

Bombard Mayor's Home.

Dennison, O., March 29.—A bomb
was thrown against the home of May-
or W. A. Pittenger, blowing a hole in
the roof of the porch and shat-
tering the side of the house. No one
was injured.

DECISION IN LOCAL OPTION CASES

IS WITHHELD BY KENTUCKY
COURT OF APPEALS—DOCKET
PRACTICALLY CLEARED.

ADJOURN UNTIL SPRING TERM

Court Hands Down Flood of Opinions
—Contents in Local Option Cases
to Be Consolidated.

(Special Frankfort Correspondence.)

Frankfort.—Adjourning for spring
term, the appellate court handed
down a flood of opinions, cleaning up
practically the entire docket. The
court did not decide the local option
contests from Montgomery, Shelby
and Bell counties. It is likely that the
contests in all of the local option cases
will be consolidated during the spring
term, and one opinion will suffice for
all of them.

The Campbell circuit court was af-
firmed in the case of George A. Wood-
burn against the Union Light, Heat
and Power Co., in which it is held
that the company is not liable for
damages to Woodburn for the destruc-
tion of his house by an explosion of
natural gas.

The Kenton circuit court was affir-
med in the case of E. F. Bagby against
the Western Union Telegraph Co.

Holding that William Seguman,
chauffeur for Miss Elizabeth J. Tyler,
of Louisville, was not performing a
service for the employer at the time
the automobile he was driving ran
down and killed Mildred M. Stephens
in Louisville, February 24, 1912, the
\$4,000 verdict which was given the
estate of Miss Stephens was reversed.

The Jefferson circuit court, in the
case of Castleman-Blakemore against
Pickrell & Craig Co., was reversed.

The appellate court held that B. F.
Avery & Sons, of Louisville, could not
be compelled by the commonwealth to
pay taxes in the Louisville office on
bills receivable and money on deposit
of its branch companies at Atlanta,
New Orleans, Memphis, Dallas and
Oklahoma City. This suit had been
brought by a state revenue agent.

Campaign of Education.

Drs. W. L. Johnson and A. B. Smith,
of the Bureau of Animal Industry,
were sent out to begin a campaign of
education in the method of preventing
foot and mouth disease. They will
visit all the dairy farms and live stock
centers and talk to farmers and dairy-
men. The State Live Stock Sanitary
board is co-operating with the federal
officials in the educational movement.

As an additional precaution against
the spread of foot and mouth disease
the Kentucky Live Stock Sanitary
board issued quarantine order No. 31,
in which regulations are made for the
handling of feed bags and other con-
tainers. The new order requires the
disinfection of all bags that have been
used to contain stock feed of any de-
scription in the "closed area," quar-
antined for foot and mouth the ship-
ment of such bags, and copies of the
order have been sent broadcast over
the state.

War on Illiteracy.

The campaign of a hundred orators
in behalf of the plan of the Kentucky
Illiteracy Commission to eradicate
illiteracy from the state will start
probably in July, about the time the
rural schools open, and continue
throughout the school year. It is the
consensus of opinion among trustees,
to which the commission deferred, that
the teachers should be at work at the
time the campaign starts so that none
of the initial impulse will be lost in
the movement. Mrs. Cora Wilson
Stewart, chairman of the commission,
is working out the details. Congress-
man W. J. Fields has consented to do
a month's work speaking, and only
one date is in his own district. At-
torney General James Garratt will make
four speeches at least, and R. H. Wil-
son, state superintendent of Okla-
homa, will make several.

Foiled in Attempt to Escape.

Scaling the wall of the cliff at the
workhouse quarry with the agility of
a mountain goat, Andy McMullen, on
a previous occasion figured in a
sensational escape from the institu-
tion, sought his freedom and a shot
fired in close proximity to him, as he
sped across the fields on top of the
hill, alone sufficed to bring him to a
halt. Hampered by shackles Andy
made the ascent of the steep cliff with
the nonchalance of a "second story"
burglar. Fearful lest he might be
caught he again made an attempt to
escape after his recapture. Workhouse-
keeper Haldi put a ball and chain on
him with weight sufficient to check
any inept desire to scale the quar-
ry wall.

Cincinnati Route Favored.

Delegates from the counties of
Grant, Scott, Payette, Jessamine,
Boyle, Mercer, Lincoln, Putnam, Mc-
Creary and Casey, numbering 100, met
here to discuss the construction of the
Dixie Highway. Governor McCreary
and Commissioner of Highways Ter-
rell addressed the meeting. The plan
is to construct the road from Cin-
cinnati through Williamson, George-
town, Lexington, Nicholasville, Dan-
ville, Somerset, Monticello and Albany
to Atlanta, Ga. Governor McCreary
was appointed delegate.

ALSACE BATTLE FAVORS FRENCH

Fighting Turns to Advantage of
Allies Despite Obstinate Re-
sistance Offered.

GERMANS BOMBARD ARRAS

After Taking Hartmannsweller Kopf,
French Make Further Advances,
Capturing Prisoners—Germans
Abandon War Material.

By FRANKLIN P. MERRICK.

International News Service Correspondent.

Paris, March 29.—Fighting in Al-
sace is turning to the advantage of the
French troops despite the obstinate re-
sistance offered by the Germans. Ac-
cording to reports reaching Paris from
the front, the French troops now in
Alsace number 350,000 men.

Capture Hartmannsweller.

Their offensive in the Vosges has
been directed against a key position
held by the Germans on Hartmanns-
weller Kopf, a commanding hill. The
official communiqué from the war of-
fice announces the capture of the sum-
mit of Hartmannsweller Kopf by the
French soldiers and their further ad-
vance on its north, east and south
slopes.

The Germans bombarded Arras with
great violence. This caused fire to
break out, the communiqué says, but
it was quickly extinguished. The text
of the communiqué follows:

"The enemy bombarded Arras at
night with shells of all caliber. A
fire which broke out was quickly ex-
tinguished.

"Mine warfare continues at LaBois-
selle under conditions favorable to us.

"In the Aronne, in the region of
Bagatelle, bombs were thrown be-
tween the lines. There was no in-
fantry attack.

"In Alsace, after energetic opera-
tions lasting several days, we reached
the summit of Hartmannsweller Kopf,
which we captured from the enemy.
At the same time we advanced on the
north, east and southeast slopes in
strength taking further the enemy, sev-
eral of whom were officers.

War Material Abandoned.

"The Germans abandoned consid-
erable war material and left numerous
dead on the ground. Our losses were
small.

"A German aviator threw several
bombs on Willor, northwest of Thann.
Three small children were killed."

READY FOR SUPREME ATTACK

Twenty-four Battleships Will Partici-
pate in Final Assault on the
Dardanelles Forts.

London, March 29.—Twenty-four
powerful battleships will participate
in the final assault on the Dardanelles
forts, according to an Athens dispatch
to the Evening News, which described
the preparations for the supreme at-
tack as "colossal." Another meeting
was held by the British and French
admirals and immediately thereafter
the captains of all the ships were
summoned by their respective com-
manders and given special instruc-
tions.

TRAILS JAP CRUISER ON COAST

United States Revenue Cutter Investi-
gates the Presence of Chitose
at Monterey Bay.

San Francisco, March 29.—The United
States revenue cutter McCulloch
has been ordered by J. O. Davis, col-
lector of the port, to proceed to Mon-
terey bay, California, to investigate the
presence of the Japanese cruiser Chi-
tose, which put into that port with all
lights extinguished. It was reported
that the Chitose appeared at Monterey
acting as convoy to the tug Sea Rover,
bound for Turtle bay, Lower Califor-
nia, where with two barges, the sal-
vage work of the wrecked Japanese
cruiser Asama was to be attempted.

WILSON PEACE ENVOY FAILS

Colonel House Leaves Berlin Con-
vinced His Task Is Hopeless—Has
Been in England and France.

Amsterdam, March 29.—Col. E. M.
House, personal friend of President
Wilson, will leave Berlin today with
the impression that any suggestions of
mediation by the United States to ter-
minate the war would be fruitless at
present, according to advices received
here from Berlin. Colonel House con-
ferred with Foreign Minister von
Jagow in Berlin on Friday. He has al-
ready been in England and France and
is said to have learned that any peace
proposals would not be accepted.

Promise Protection.

Constantinople (via Berlin and Am-
sterdam), March 29.—The grand vizier
promised Ambassador Morgenthau that
the Turkish government would do
everything in its power to protect
American interests and missions in
northwestern Persia.

Veteran Horseman Dies.

St. Louis, March 29.—Capt. Patrick
J. Carmody, veteran of the Civil war,
and until ten years ago one of the
most prominent race-horse owners in
this country, is dead at his home here,
aged seventy-nine.

BERLIN REPORTS FRENCH SUCCESS

German General Staff Admits
Loss of Summit of Hart-
mannsweller Kopf.

STILL HOLD EDGE OF HILL

Statement Announces Repulse of Rus-
sian Troops Attempting to Ad-
vance Against Tilsit, East
Prussia, Looting Intent.

By FREDERICK WERNER.

International News Service Correspondent.

Berlin, March 29 (by wireless).—At-
ter a battle lasting five days French
troops have succeeded in capturing the
summit of Hartmannsweller Kopf, an
important strategic point of the
Vosges in Alsace. The French victory
was admitted in an official report from
the German general staff which states
that the edge of the height is still held
by the German troops.

The official report announces the re-
pulse of Russian troops attempting to
advance against Tilsit, East Prussia,
with the intention of looting it as they
did Memel. Other minor successes
against the Russians are also report-
ed.

In addition to bombarding Metz
from their aeroplanes, as has been an-
nounced, French aviators have also
thrown bombs upon Bapaume and
Strasbourg. These did no military dam-
age, it is stated. The general staff's
report follows:

"Western Theater.—In the Vosges,
the French Friday evening occupied the
top of Hartmannsweller Kopf. The
edge of the height is still held by Ger-
man troops.

French Bombs Kill French.

"French aviators threw bombs on
Bapaume and Strasbourg without do-
ing any military damage. In Bapaume
eleven Frenchmen were killed and 22
severely wounded by the bombs.

"Northwest of Arras a French aviator
was forced to land. Our aviators
bombarded him with several bombs.

"Eastern Theater.—The Russian
who had started from Taugroen to
loot Tilsit as they did Memel were re-
pulsed near Laugszargen. They suf-
fered heavy losses and were driven be-
yond Jediorupa, behind the Jura river.

In this section several Russian ad-
vances were repulsed near Laugszargen.
Several Russian advances were
repulsed between the Augustow forts.
On the Vistula an engagement is still
going on at some places."

The following supplementary report
on the general situation in the eastern
theater of war was also issued at the
war office today:

"The conclusion now appears just-
ified that the Russian advance on
Memel had a certain connection with
a general renewed offensive on the
part of the Russians with the object
of again threatening East Prussia.

Russians Fill Up Gaps.

"The offensive against Memel was
closely followed by advances from
Taugroen toward Tilsit, past Ma-
riampol and finally toward Augustow.
The last of these advances was un-
doubtedly undertaken from the direc-
tion of Grodno whither the right wing
of the Russian Tenth army had re-
treated.

"This offensive seems to indicate
that the Russians have finished fill-
ing out the gaps in their lines caused
by Field Marshal von Hindenburg's
victory in East Prussia, and are now
ready for new operations."

"News from the Carpathians in-
dicate that fighting is still proceeding
on the whole line, but no details worth
while are given."

WEST VIRGINIA IS "BROKE"

Officials Buy the Postage Stamps for
the State's Business—"Ghost"
Fails to Walk for Many.

Charleston, W. Va., March 29.—Offi-
cials in the capital were paying for
the postage stamps used in their de-
partments, because Uncle Sam does
no credit business, and the state of
West Virginia has very little money
for current expenses.

More than 150 of the 225 persons
employed at the state house were
passed by the paymaster when he
made his usual monthly round.

Hard times have come upon official
West Virginia, because the late leg-
islature failed to appropriate enough
money to run the government. Nor
mal monthly expenses are \$200,000,
while the amount available at this
time is only \$75,000.

WILL TELL ALL ABOUT CULT

"Apostle" George in Jail Has Vision
and Command From God—Awaits
Second Revelation.

Alliance, O., March 29.—"Apostle"
George in the jail told Police
Chief A. George he had had a vision in
the night and had been commanded by
God to tell the chief all he knew about
the "Kingdom of God" cult, and the
death of Amy Tanner. He said his
revelation brought the command to be
explicit, even though he himself
would be incriminated. The chief is
waiting for the "apostle" to terminate
a second audience with his spiritual
mentor when George promises to tell
his story.

A LARGER NAVY

STEPHENS SAYS WATERWAY
WILL NOT BE THE MEANS OF
DOUBLING EFFICIENCY.

American Battle Ships May Not Go
Through the Canal to Exposition—
Earth Slides Interfere with Plans.

Western Newspaper Union News Service.

Washington.—Efforts to obtain ap-
propriations for a large navy will be
made during the next session of Con-
gress on the score that the Panama
Canal is a failure as a great navy ad-
junct. When the building of the canal
was proposed it was asserted that it
would multiply the efficiency of the
United States navy by two, as it would
permit the quick transfer of the en-
tire fleet from one coast to the other.

Now a number of Congressmen, in-
cluding Representative Stephens, of
California, are coming forward with
the assertion that this multiplication
is rather a sentimental consideration
and that the only way to protect both
coasts is to have two large and effi-
cient fleets. The theory that the
building of the canal would make it so
easy possible for the battleships to
go from one ocean to the other and
that a single fleet would do the service
of two, in the opinion of Stephens,
will not be borne out.

One evidence of this is the fact that
the slides in California cut are inter-
fering so seriously with the traffic
through the canal that the plan to
send a great armada of battle ships
through the canal to the Pacific to at-
tend the San Francisco Exposition is
not likely to be carried out.

It is clear that in the present un-
certainty of canal traffic no reliance
can be placed on the free or safe
movement of the dreadnaughts of the
Atlantic fleet from one ocean to the
other, but further excavation in Cal-
ifornia may remedy this situation.

Stephens, at the hearing before the
House Naval Committee, compelled
the Navy Department officials to ad-
mit in effect that in a time of public
danger it would not satisfy the public
to have the big battle ships assembled
in one ocean, leaving one side of the
country unprotected. Secretary Dan-
iels admitted that he would not feel
comfortable on the Atlantic Coast in
time of war if the fleet were on the
Pacific Coast.

BANK ROBBERS GET AWAY.

Oklahoma City, Okla.—All trace of
the band of desperadoes who escaped
from Stroud, Okla., after robbing two
national banks of \$5,000, apparently
was lost. After eluding a number of
mounted possees and a company of Ok-
lahoma National Guard they were re-
ported to have passed through Kelly
ville on their way to the fastnesses of
the Kiamichi Mountains. Since then
no report of their being seen has been
received. The condition of Henry
Starr, Cherokee desperado, and anoth-
er of the bank named Estes, was re-
ported improved.

FINANCIAL STATEMENT.

In this issue of the Courier is published a condensed statement of the financial condition of the Town of West Liberty. It shows a balance in the treasury of nearly one hundred dollars after all current expenses have been paid and \$175.00 paid on the fire engine.

FAILED TO MEET.

A mass meeting of the citizens of this town was scheduled to have been held at the court house on last Thursday night to discuss and devise plans for cleaning up the streets, allies and vacant lots, but the citizens failed to meet. If the people who habitually obstruct the streets, alleys and sidewalks and allow rubbish to remain on vacant lots don't take warning and get busy they are liable to have to pay an officer for doing what they could and should have done themselves.

That you will brag about this town so much that you will have to work for this town in order to keep from being a liar.

That you will take a half day right now to pick up the odds and ends around the place and turn them into either use, money or ashes.

That you will contribute as much money as you can afford and as much enthusiasm as anybody, to any movement to develop the town's resources.

That you will make friends with the farmers, if a town man, or with town folks, if a farmer, and help work together for the good of the community of which this town is the center.

Feelin' Blue.

Feelin' blue, my brother?
Days are passin' by;
God has filled each one with beauty,
You ken find it if you try;
All the joyful sounds of nature
Bein' made fur you.
Birds a-singin', sun a-shinin',
No time fer feelin' blue.
Laugh—be happy, jest a little,
Whistle care away;
In the dull and dreary task
You have to do each day,
May be jest what you've been
desirin'.
Hidden from your view;
Keep-a-diggin' find the treasure—
No time fer feelin' blue!
All the good deeds you are doin'
Build a stairway to the sky;
Mountin' upward, it will leave
you
Up at Heaven when you die,
Round the throne you'll be a-dan-
cin'.
Angels singin', too,
Everybody happy—
Then you won't be feelin' blue!

Take Profit out of War.

If we are to have more battle-
ships, let the government build
them at government navy yards.
If we must have more guns, let
the government make them in its
own shops. If we must have
powder, bullets and shells, and
other implements of death, let
the government manufacture
them. And so with aircraft for
war; so with mines and subma-
rines.
Admitting that we need all
those things, yet it is true that
we do not need a war lobby at
Washington, nor do we need the
constant, inspired agitation
through newspapers for the "pre-
paredness for war" that means
private profit to those engaged in
building ships, making armor-
plate, powder, guns and other im-
plements of war.
It is of very little consequence
whether or not such things can
be made more cheaply by the
government—can be made at
lower cost than by private firms
or individuals. Profit in war and
"preparedness for war" is an in-
centive to agitation for war.—
San Francisco Star.

The Business Prospect.

Philadelphia may not be pro-
gressive in every-thing, but note
that her city government has sold
five million four per cent bonds
"over the counter," or direct to
the investor, without any inter-
vening banker, in less than seven
hours. This not only illustrates
the correct method of selling
bonds but is a little hint also of
the capital waiting for invest-
ment. Most of the sale was for
\$500 and \$1000 to men and women
standing in line.
There is one slogan going about
just now, "Made in America."
An excellent slogan. There is
another, "Buy it now." That also
is sound. The best judges
predict a rapid improvement in
conditions. They are beginning
already. Conditions are very
favorable in our fortunate
country. The sensible and help-
ful thing is to jump right in.—

Good Roads—Good Effect.

Here are two little paragraphs
which ought to convince those op-
posed to meeting the cost of good
roads that they are worth some-
thing after all to every communi-
ty and have a far-reaching effect.
It is the history of all states
that where highways are improv-
ed abandoned farms are promptly
reclaimed.
Most of the rural schools and
churches abandoned in this coun-
try because of non-attendance are
found in the mud-road districts.
That doesn't mention the sav-
ing in wear and tear on vehicles
and in getting products to mar-
ket or the satisfaction there is in
being able to get to town or to
the neighbors' quickly and easily.
These good roads through the
country are costing some money,
it's true, and doubtless some are
not as well constructed as they
should be for the amount expend-

ed, but they are worth having
and are figuring largely in the
affairs of more people than those
living along them. The wonder
is that people lived so long with-
out them, being content to go on
year after year spending money
each spring to work the roads
and having nothing permanent
in the way of improvement.
With good roads life in the coun-
try today is all that could be de-
sired and offers temptation to
many to forsake the town and
get back to the land from which
the living and prosperity of the
people come. That's how good
roads concern so many more than
those who just live along the
lines of them or use them merely
for pleasure driving. It is diffi-
cult at times even to approach
very near to estimating the value
of a public improvement so far-
reaching is its effect and so great
in its benefits.

Canned Sunshine.

West Liberty is to be placed on the map. Hereafter it will rank with the birthplaces of Edison, Erickson, Bell and other famous inventors. T. H. Caskey, a young mechanic of this town has perfected an invention that will make him famous and will be of incalculable benefit to the civilized world. In fact it is hard to estimate the possibilities of this great discovery.

The inventor was very reticent with the Courier reporter, and only the vaguest outlines of the wonderful process was disclosed to him, but enough to convince him that this is the greatest invention since the invention of the telephone. The process has not been patented yet, and for that reason we are obliged to omit the details of the invention.

The invention is a process for "canning" sunshine. The young inventor took the reporter through his workshop and showed him some of the "finished product." To him, uninitiated in the scientific lore of chemistry and mechanics, it looked like a large jar of some jelly-like substance inclosed in another jar, the two jars separated by a thin metallic sheet of metal resembling sheet lead. What appeared to be an immense skylight was in reality a mystic array of concave mirrors and beneath was an intricate machine of some kind, the nature of which was uncomprehensible to the newspaperman. However, the inventor placed one of the inner jars, filled with a clear-looking substance, in the machine, and manipulated the mirrors so that an intense pencil of sunlight was thrown on the machine, and in a few seconds removed it. The substance it contained was changed in color, resembling phosphorous, and gave forth a dazzling white light, so intense that it could not be looked upon. Then he wrapped it in the sheet metal and placed it in the outer jar. Then taking the reporter into his dark-room, he produced a tiny vial, and uncased it. The dark room was instantly filled with a dazzling light, and at the end of thirty minutes there was no seeming diminution in its brilliancy.

The young inventor then told the reporter that by his process sun light could be "canned" and stored away for future use; that the sunlight was, by the process, greatly concentrated and intensified and could be released and used as it was needed. He also said that it had almost as great energy as electricity and that he was experimenting upon a machine for applying the energy for power purposes, but for the present he would only market it for lighting purposes. By an ingenious arrangement, they (they will be manufactured in all sizes to meet the various requirements) can be "turned on" and "shut off" at will. The first test of them will be for street lighting purposes, and the inventor has perfected an apparatus controlled by clock work, that will turn the lights on and off at the option of the owners, depending upon how many hours they want the streets to be lighted. One ten pound jar, the inventor says, will furnish light for twelve months with one charging, and that the light will be superior to an electric arc light. He says that the cost of installing the lights will be less than one-tenth for the running and re-charging; rendering the great cost of installing an electric plant unnecessary. A company will be formed here to market the invention and build a large factory for the canning of the sunlight, and lights of all sizes will be made for street lighting, for business and for family uses.

So perfect is the light, so nearly like the light of the sun on an unclouded day, that J. H. Sebastian, one of our prominent farmers, is getting ready to try an experiment with it in poultry raising.

He is preparing an immense poultry house and range, and will inclose and cover it with light proof sides and roof, and will then install some of these lights to light it. His theory is that he can turn on the lights for eight hours and that the hens will come down off their roost and lay, that he can turn off the lights for eight hours and make the day only eight hours long, and that by this means get three days and nights in forty-eight hours and increase the output of eggs from his flock one-half.

While the Courier man is not scientific he can see that this invention is far in advance of anything that has ever been brought out in this century, and he predicts that the young inventor has made fame and fortune for himself and has paved the way for West Liberty to be a great manufacturing city. The work of building the factory and equipping it will be begun just as soon as the company is organized, an option for the site having been secured.

We Should Smile.

The thing that goes the farthest toward making life worth while,

That costs the least and does the most, is just a pleasant smile,

The smile that bubbles from the heart that loves its fellow men,

Will drive away the cloud of gloom and coax the sun again.

It's full of worth and goodness, too, with manly kindness blent;

It's worth a million dollars and it doesn't cost a cent.

There is no room for sadness when we see a cheery smile,

It always has the same good look—it's never out of style;

It naves us on to try again when failure makes us blue

Such dimples of encouragement are good for me and you.

So smile away; folks understand what by a smile is meant—

It's worth a million dollars and it doesn't cost a cent.

—La Jnuta (Colo.) Republican.

Beginning Their 1916 Campaign.

The question suggests as to what the republican opponents of the administration, whether they are members of congress or various republican journals, hope to gain by their continual despicable nagging of the administration.

Partisan advantage, of course. And in attempting to gain party advantage they are forgetting patriotism at a time when real and practical patriotism is needed in this country more than it has been for years past.

It would place the matter in a more understandable light, perhaps, to say that these republicans are already beginning the campaign for 1916. Their tactics are those they are accustomed to employ just before a national election. They are employing them now when politics and political consideration should be forgotten for the sake of the nation.

But to some republicans, their party comes first; their country second—or less.—Schenectady Gazette (Dem.)

Weapons.

The comprehension of the term "assault and battery" was illustrated the other morning in Police Court when that misdemeanor was attributed to a young man who hit a boy with his motor-cycle. A leading attorney tells the Leader that assault and battery may be charged when you hit a man with a stick; when you hit a man with an automobile; when you make a threatening motion at a fellow man with your fist; when you jostle another taxpayer as you walk rapidly down a crowded street; and under a multitude of other circumstances when you threaten or actually do violence to another.—Lexington Leader.

SCHOOL NOTES.

BY E. W. WILLIAMS.

Are you intending to teach? If so why are you not attending the Normal Department of the West Liberty School? You can get two months of training yet this spring, and I am sure if you will come and put in some hard thinking you will go away better prepared to teach.

We had several new students in last week, and we had better work done than ever before. If you want a certificate now is your chance. Who is it that gets the best schools and the best pay? Those who go to school; those who are characterized by energetic and useful activity.

Some people study a question book and get a certificate, get a school, blunder along and draw the money, waste their own time and dwarf the future prospects of the children. What do you think of the teacher who is continually drawing on his bank of knowledge and putting nothing in? You can not get something out of a thing when there's nothing in it. Some teachers say: "I want to rest." Beware, lest while you rest you rust. While the husbandman slept the little foxes crept in and destroyed the vineyard.

The people of West Liberty have a splendid opportunity to enjoy a good school from and including Grade 1 through a four year's High School. If you are not enjoying it, why?

The man who works for a good school, though he does not go—everytime—the thing you think he should, is not so much to blame as the man who does nothing. If you do not want an education, please do not hinder those who do. You will egress or regress; there is no standstill, and if you won't push out do not drag someone back with you. All departments are doing good work so everybody "whoop" for the school.

We have organized a Parent-Teachers Association and the last meeting was an encouraging turnout. You know all things while are brought about by organization and this is the place where the parents can get a word in without cost.

There was an excellent program rendered Friday evening by the Expression and Music Department. A large crowd of young people attended it; but we want more parents to visit our school.

You go to your orchard, and you look at your cattle and horses, you attend to all your business affairs, and you should think more seriously about the rooms where your children attend school. This is of more importance than any thing you have to consider.

Come and see what your boys and girls are doing.

Why, Jeff!

Jeff Livingston, who in spite of the fact that he is the president of the great Sidner Preserve Company and a millionaire, is as democratic as his first name, was once a poor boy and wore his rags and patches with the rest of the "kids." Jeff occasionally finds time to indulge in a little literary work and his most recent effusion is founded upon an incident in his early in his early career. Here it is:

Two ladies gay met a boy one day; his legs were briarscratched.

His clothes were blue, but a nut-brown hue marked the place where his pants were patched.

They bubbled with joy at the blue clad boy with his spot of nut-brown hue.

"Why didn't you patch with a color to match?" they chuckled, "Why not with blue?"

"Come, don't be coy, my blue-brown boy, speak out!" and they laughed with glee; And he blushed rose-red, while he bashfully said: "That ain't no patch; that's me!"

Davis-Rose.

Mr. Curtis Davis, son of Mr. and Mrs. J. T. Davis, of Forest, and Miss Jennie Rose, daughter of Mr. and Mrs. Coon Rose, were quietly married at the bride's home Thursday evening the 25th inst., Eld. L. A. Lykins officiating.

Advice To Almost Anybody.

When your other tasks are through, Hammer Bryan! When you've nothing else to do, Hammer Bryan! Got a pimple on your lip? Have your trousers sprung a rip? Has the baby got the pip? Hammer Bryan!

Who's the cause of all your woe? Willyum Bryan. Making trouble high and low? Willyum Bryan.

Who makes butchers slick and sly, And the price of grub so high, Dooming countless men to die? Willyum Bryan.

What's the remedy, my son? Hammer Bryan! He's behind the damage done. Hammer Bryan!

It is Bryan that brings the snow It is Bryan that takes your dough, Bryan who makes the coal run low. Hammer Bryan.

When you've nothing else to do, Hammer Bryan! What's fair play to me and you? Hammer Bryan!

Hammer him from morn 'til night, Knock him wrong and knock him right, He's the only goat in sight. Hammer Bryan!

Successful.

One of the most profitable crops that the farmer can grow is the potato. Yet these profits can be almost doubled with very little extra labor and expense. The preparation of the soil is important. The ground should be plowed from eighteen to twenty inches, or even deeper. The more carefully the ground is prepared the greater the yield. Barnyard fertilizer should be well distributed in the furrows which should be thirty-six inches apart. Always buy the best Northern grown seed. Disinfection of the seed before planting is most important, and all seed potatoes should be soaked for two hours in a solution of FORMALIN—one pint to thirty gallons of water—after which remove and cut for planting. Best results will be had by cutting two strong eyes to each piece which should weigh from two to three ounces each—plant about four inches deep and drop seed about fourteen inches apart. As soon as the plants are well up work them out with a light plow or cultivator, throwing the dirt slightly around the young plants. This process should be repeated every ten to twelve days until the crop is laid by.

It is proven conclusively that SPRAYING is not an accident in potato culture, but is just as important as all the other treatments combined. The insects and diseases may be taken care of by a definite process of spraying. You must kill the insects before they stunt the growth of the plants, and you must spray to keep the bugs and fungous diseases away. Commence spraying when the plants are six to eight inches high. Spray with bordeaux mixture and repeat the operation every ten days until after plants bloom. For the destruction of the bugs add to the mixture one pound of arsenate of lead to fifty gallons of bordeaux mixture.

The Geneva New York Experiment Station has conducted a ten year experiment on spraying potatoes. The result shows the average yield on unsprayed plots 168 bushels per acre. When three sprayings were given the average yield was 237 bushels per acre. When six or seven sprayings were given the average was 266 bushels per acre. An increase due to spraying alone of 97 1-2 bushels.

The chemicals are inexpensive and any person desiring to make "two blades of grass grow where only one grew before" can do so. Even the smallest gardener who plants only a few pecks of seed can be repaid by this improved method of intensive farming.—Sentinel-Democrat.

Millinery.

Any one desiring an Easter hat can find it at Mrs. Womack's—over W. G. Blair's store.

Recital.

The music and expression classes of Misses Cisco and Hankins gave a joint recital at the High School Auditorium Friday evening. The various numbers on the program were well selected and well rendered. The pupils of these departments have made splendid progress and their work is very gratifying to their parents, teachers and friends.

The Auditorium was well filled but the pleasure of the occasion was somewhat marred by the extremely bad order which prevailed in some parts of the room. There are a few young hopefuls in this town who are badly in need of a double dose of discipline. If their parents would take a day off and dress them down at home it would perhaps go a long way toward their reformation. It is very disgusting to people, who go to a public function to be entertained and instructed, to be unable to hear the readings or the music because of the bad conduct of a lot of undisciplined boys.

West Liberty Athletic Association Organized.

The Athletic Association met and organized Friday afternoon, March 26, 1915, and elected the following officers:—Hendrix Henry Dixon, Pres., Garland Arnett, V. Pres., Herbert Maxey, Sec., Treas., Wyck Fraley, manager and Coach, and Morton Cisco captain. Several important subjects were discussed. The Association expects to have the best ball team this season it has ever had. It earnestly hopes to have the support of every citizen in all its work, and to be a winner it has to have this. Everybody help them out and make a winning team at West Liberty.

Who Has Lived Here the Longest?

We would like to know who has lived longest in Morgan county. Write us a letter, if you are an old resident, tell us some facts about your early days. We will publish the letters from the oldest residents. We wish to secure as many interesting facts as possible. The publication of one incident will remind other old-timers of other incidents, so let the letters come.

To the person showing the longest continuous residence in county, absence of less than one year or service in the army or navy not counted against the pioneer, we will send the Courier free for the remainder of his or her life.

Moving.

A great many of our citizens have changed locations this spring. Senator Chas. D. Arnett has moved to his farm recently bought of Jno. A. Kendall in the Neal Valley near town, and Mr. Gray, who formerly lived on the farm has moved to S. W. Cecil's property on Water Street; T. H. Caskey has moved to the J. P. Haney property on Glenn Ave.; J. M. Patrick has moved to the house on Main Street recently vacated by L. T. Hovermale; Leslie Caskey now occupies the red house on Glenn Ave., and John Walsh has moved to the John Dixon property a short distance east of town.

Good Policy.

Farmers and townspeople all over the country are rapidly adopting the new policy of using writing paper and envelopes with their names and address neatly printed thereon.

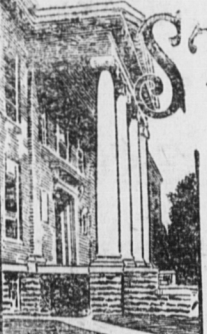

It has many advantages. It prevents the numerous errors in spelling of names, insures correctness of address, and guarantees the prompt return of your letter in the event of non-delivery.

It is no more expensive than the buying of stationery in small lots in the old way, and adds a distinctive air of respectability and refinement to every home. Let us print some for you.

Ringnecked Pheasants.

The English ringnecked pheasants allotted to this county arrived the first of the week and have been distributed.

The crate had been broken into and four birds were missing. Great care was taken in the selection of the places where they were liberated and every precaution will be taken to protect them. It is a heavy fine to kill or molest them in any way and it is to be hoped that everybody will take an interest in the birds and lend every assistance possible toward protecting them.

An Invitation.

The Police Judge of West Liberty and the town board cordially invite any and all citizens of the town, who are interested in civic improvement, to be present at the regular meeting of the board of trustees on Tuesday evening, April 6. At that meeting plans for cleaning up the town generally will be discussed, and any citizen, male or female, who would like to see a cleaner, healthier, more beautiful West Liberty, will be gladly heard if they have any plan to suggest.

Mrs. Sebastian still Improving.

J. H. Sebastian returned Monday from Lexington where he had been with his wife, who is at the St. Joseph Hospital. He says that she is rapidly recovering and that he thinks she will be able to come home the latter part of next week. His son, Walter, is with Mrs. Sebastian this week.

Mad Dog Scare.

A dog supposed to have hydrophobia ran amuck at Wrigley Monday, biting several dogs and several head of stock. A posse of men started in pursuit of it, but we have not learned the result of their search.

Could She Doubt?

"Would you love me as much if father lost his wealth?" "He hasn't lost it, has he?" "No." "Of course I would, you silly girl."—Minneapolis Journal.

Inspired by hearing Daisy Klock sing the latest war song, "Sister Susie's Sewing Shirts for Soldiers," Ed Spooner got busy with his new fountain pen and has turned out another timely war ballad, entitled "Brother Bill is Buying Bread for Belgians," which he will have "licked into shape" before the end of the week, he tells us. Dolly McGee, our sprightly proofreader, suggests the following titles for Edward's attention, and believes one or two of them ought to make a hit in vaudeville circles: Alice Also Asking Alms for Alsace.

Fanny Fain Would Furnish Food for Flanders. Hetty's Hustling Hams for Hungry Huns.

Katy's Knitting Kimonos for the Kurds. Dorcas' Darning Drawers for Devastated Dixmude.

Pageant of Patriots.

The Pageant of Patriots, to be given in our town the first week in May, by our school children, is to be given free of charge. The object is not to raise money but to create an interest in and appreciation of our public schools. We must have the best schools in the State, and it can only be accomplished by community spirit and hearty co-operation of every one interested in the welfare of the town.—Danville Advocate.

Bogalusa, La. March 22, 1915. Mr. H. G. Cottle, Editor Licking Valley Courier, West Liberty, Ky., Dear Editor:

Please find enclosed \$1.00 for another year's subscription to our successful paper.

I certainly hope that the European war is not effecting business in that part of the country now. When the war first began the people of this county threw up their hands and began howling "hard times," but in a few weeks they realized that the war was all in Europe not in this country. They began to reorganize and lay plans to continue successful business. The big mill here, which is the largest saw mill in the world, has reopened and is running in full blast night and day, putting out 1,000,000 feet of lumber per day, and since the recent advance in the price of lumber the little mills throughout the county have started up and times in general are good. I am safe in saying that this town, at the present time, is in the best condition of any town in the south.

With best wishes for your continued success, I am, Yours truly, J. F. HAMILTON.

It's a good and safe rule to sojourn in every place as if you meant to spend your life there, never omitting an opportunity of doing a kindness, speaking a true word, or making a friend.—Ruskin.
